

## BINKS NEW 2100 CONVENTIONAL SPRAY GUN FEATURES NEW AND INNOVATIVE "MAXIMUM DELIVERY" AIR NOZZLES

Binks introduces the new 2100, a more versatile, rugged, and comfortable spray gun. The Binks 2100 is a conventional, full-size spray gun with stainless steel fluid passages. The new **Maximum Delivery** air nozzles provide better atomization with less material and lower air consumption, while spraying a wide range of material.

This durable spray gun is comfortable, well balanced, and easy to use. A specially designed handle improves operator control, balance, and spray quality. Supported by the largest selection of air and fluid nozzles in the industry, the 2100 spray gun will withstand years of use under the toughest working conditions.

This Gun is the the direct replacement for the Binks 2001  
It uses the same fluid tips/needles and aircaps
